Why
Do you buy and use an inferior article
of Paint, when the labor of putting on
costs as much as it does to use a good one?

Don't
Think for a moment that because Johns
Asbestos Paints are high priced that they
cost more.

You
Will soon find out if you use them that
they are cheaper to start with, for they
will cover enough more surface to more
than make up the difference in price.

Paint
Made of Pure Linseed Oil, White Lead and
Zinc is all right, whoever makes it, and
will wear well. The JOHNS ASBESTOS

From the cloof of time
Upon heavens unloofed,
Canst thou think of the tree that grows,
What the glory of thy boughs shall be?"

"In the days when we went geysering
Long, long ago!"

Spring.

Only a bit of blue,
To the sky;
Only a fleecy cloud,
O' the sky;
Only a twinkling star,
O' the sky;
Only a little bird,
Swain and maid;
Only a little breeze,
Moulding away;
Only a little rain,
Trilling a lay;
Only a little grass,
Growing green;
Trying to force a way,
The old brown roots between;
Only a little brook,
Running free;
Only a bud and blossom,
Bursting out;
Only a little sun,
Bursting on bush and tree;
Only a little snow,
Among their branches here;
And mounting breezes,
And Spring is here.

TOWN AND VICTIMS.
There is talk of lighting Ayres Hall with electric lights. Five different societies now occupy the hall.
The Rev. J. H. Hayes has sold his place in Ayres town.
The season for Mayflowers is almost over. It will be the first to end one.
Mary A. Turner, who has been who has been a sufferer for several years from a broken hip, fell heavily to the ground, and lay upon the ice for some time, rendering her entirely helpless. She was rescued by a neighbor, and taken to the mercantile of Bolander's Mill, and is highly respected.
The town of North Norway has sold its saw house by fire Thursday night. The evaporator nearly new and about a quarter of a million of lumber, which is commonly used in the business, were lost.
The late Esie E. Hill vs. the town of Norway has been settled. Amount paid to the town of Norway is \$1,480.
Dr. J. H. Hayes has been visiting the Rangely lake the past week.

To rise and fall as they were wont to do.

And under its shade all things grow free,

MEXICO.
The Thompson brothers who figured in
the recent murder were sons of Charles
Thompson, a former resident of Mexico.
His wife and father and mother-in-law
were a Carleton of this town, are dead.

Nearly all have closed their winter's
home at the end of the season. There
some are trying to get in a few loads of
poor sledding. Every mill has a good
load of lumber ready to ship. The mills
employ 14 men. Mason & Rolfe are do-

Eminent physicians affirm the truth of this welcome news, and ample proofs of the truth of the efficacy of the information we are able so gladly to impart. It is certainly a good omen to those of our people who are afflicted with debilitated bodies, who feel exhausted strength and vitality, who cannot eat or sleep, who are debilitated and debilitated, to know positively that Dr. Greene's Nervura blood and nerve remedy will do them good. Particularly is it a blessing to those who are afflicted with spring almost everybody feels lazier, and it is a good omen to know that the best of all spring remedies is the best of all spring remedies.

Doctors are enthusiastic in their approval of the efficacy of this remedy. They heartily recommend it to their patients, and many of our best known physicians have written in praise of its wonderful curative power.

Dr. B. D. Bickford, of Wolcott, Vermont, an eminent physician, states:

"I have used Dr. Greene's Nervura blood and nerve remedy for some time, first trying it on my family, and then on my patients. I have found it to be so much good that I now recommend it to all my patients. I have used it in my own case, and I have used it in my own case. As a tonic, it is the best of all to build up a person."

Dr. Robert W. Lance, of So. Woodbury, Vermont, an eminent physician in the State of Vermont, says:

"I have known about Dr. Greene's Nervura blood and nerve remedy and the good results it causes, as a tonic, after the use of it, and I have used it in my own case, and I have used it in my own case."

make ready for the labors of the swiftly moving day.

At the wish of the Scribe the Great Atonement lifted the curtain of the early morning and the throng of senses and events clamored for recognition, and those that had transpired within view from his Forties came up again, the years of the beautiful to see, and with them the face of the young man, many dear friends, who long since had been forgotten, and deeper waters than those of the Pennsylvania.

We had travelled that road together in weather fair to see, and in angry storms of sleet and snow, we had together suffered the trials of the winter, and the beautiful trees nature had planned to protect all pilgrims going that way, and the snows of the winter had been falling in sleeping in quiet beauty or curled into white cups by the god of the north wind. On the way we had seen the face of the marvelous things of life, striving, if perchance we might determine how we might be able to do better than we were, but now alas, the years are growing many times as they sleep here to live in a more and stronger voice than a larger life.

One came, a very dear friend of the Scribe, and he had been here for a year or feature, just three months, as the world counts time, later in coming to the Scribe, and he had been here for a long time, a regular truthful, conscientious young man, anxious to know the right that he might do, and he had been here for a long time, early years seemed to overlead him with his cares, its duties, and, above all, its joys, and he had been here for a long time, both our paths diverged and are many summer sons had come and gone, word of the Scribe had been here for a long time that he had been tired in his journey here and had been tired down to rest. And he had been here for a long time, and the same earnest look he visits me here. What a marvelous power is here! No wonder, no, no expression of the kind face is gone.

[illegible]

mentees. They have received great good from its use. I do not hesitate to recommend it.

Dr. Willard H. Morse, F. B. S. Sec. of the New York State Board of Health, Littlefield, N. J., the greatest expert on medicinal herbs in this grand discovery of Dr. Greene:

"The true remedy for nervous diseases is the tonic which Dr. Greene has discovered. It acts by affecting the organs of nutrition, and entering into the formation of new nerve tissue, which gives new strength to the nerves. This means the making of new nerves. Dr. Greene's Nervura is the true tonic remedy is the American nerve tonic."

The well-known Dr. Emil Neumer, of the University of Berlin, Germany, and Association Hospital states:

"We are using Dr. Greene's Nervura in our hospital for all cases of general or our patients, with good success."

This enthusiastic endorsement of physicians is the best evidence of the great discovery as the greatest tonic and restorative. Druggists tell you everywhere that it is the best tonic and restorative they know. In fact it is the tonic which makes the difference between those who take it strong and well, and those who do not. It is the tonic which gives people so much confidence in it, the fact that it is the tonic which makes the difference between the discovery and prescription of Dr. Greene, and the prescription of any other tonic. It is the tonic which makes the difference between the success of Dr. Greene's Nervura, the well-known tonic and probably most successful specialist in curing nervous diseases, and the failure of any other tonic. It is the tonic which makes the difference between the fact that it can be consulted by the physician, and the fact that it can be consulted by anyone, personally or by letter.
